केनरा बैंक Canara Bank

BASEL III PILLAR 3 DISCLOSURE (ON CONSOLIDATED BASIS) AS ON 30.06.2017

Table DF – 2: Capital Adequacy

(i) Qualitative Disclosures

In Capital Planning process the Bank reviews:

- Current capital requirement of the Bank
- The targeted and sustainable capital in terms of business strategy and risk appetite.

Capital need and capital optimization are monitored periodically by the Capital Planning Committee comprising Top Executives. Further the committee is being monitored at Board level, with members of the Board in the committee comprising of Managing Director & CEO, Executive Directors and two independent Directors. Capital requirement is projected quarterly considering the expected growth in advances, investments and investments in Subsidiaries / Joint Ventures, etc. Committee takes into consideration various options available for capital augmentation in tune with business growth and realignment of Capital structure, duly undertaking the scenario analysis for capital optimization in tune with its long term goals enumerated in ICAAP and Vision documents of the Bank.

Though the bank has implemented the Standardized Approach of credit risk, Bank has sent Letter of Intent (LOI) dated 30.09.2012 to RBI for adoption of Internal Rating Based (IRB) Approach for computation of capital charge for Credit Risk.

Major Initiatives taken for implementation of IRB approach are as under:

- Bank has put in place a methodology for computation of PD and LGD for Corporate Assets and Retail Assets.
- Mapping of internal grades with that of external rating agencies grades: Bank has mapped its internal rating grades with that of external rating agencies grades. This exercise will help to know the status of rating quality.

Table DF- 3: Credit Risk

(i) Qualitative Disclosures

Bank's policy governs all credit risk related aspects. CRM Policy outlines the principles, standards and approach for credit risk management at the Bank. It establishes systems, procedures, controls and measures to actively manage the credit risks, optimize resources and protect the bank against adverse credit situations. The Delegation of Power for approval of credit limits is approved by Board of Directors.

The Bank's policies assume moderate risk appetite and healthy balance between risk and return. The primary risk management goals are to maximize value for shareholders within acceptable parameters and adequately addressing the requirements of regulatory authorities, depositors and other stakeholders. The guiding principles in risk management of the Bank comprise of Compliance with regulatory and legal requirements, achieving a balance between risk and return, ensuring independence of risk functions, and aligning risk management and business objectives. The Credit Risk Management process of the Bank is driven by a strong organizational culture and sound operating procedures, involving corporate values, attitudes, competencies, employment of business intelligence tools, internal control culture, effective internal reporting and contingency planning.

The overall objectives of Bank's Credit Risk Management are to:

- Ensure credit growth, both qualitatively and quantitatively that would be sectorally balanced, diversified with optimum dispersal of risk and also strive towards credit growth with usage of capital efficiently.
- Ensure adherence to regulatory prudential norms on exposures and portfolios.
- Adequately pricing various risks in the credit exposure.
- Define roles, responsibilities and empowerment.
- Form part of an integrated system of risk management encompassing identification, measurement, monitoring and control.
- **Strategies and processes:**

In order to realize the above objectives of Credit Risk Management, the Bank prescribes various methods for Credit Risk identification, measurement, grading and aggregation techniques, monitoring and reporting, risk control/ mitigation techniques and management of problem loans/ credits. The Bank has also defined target markets, risk acceptance criteria, credit approval authorities, and guidelines on credit origination/ maintenance procedures.

The strategies are framed keeping in view various measures for Credit Risk Mitigation, which includes identification of thrust areas and target markets, fixing of exposure ceiling based on regulatory guidelines and risk appetite of the Bank, Minimizing Concentration Risk, and pricing based on rating.

Bank from time to time would identify the potential and productive sectors for lending, based on the performance of the segments and demands of the economy. The Bank restricts its exposures in sectors which do not have growth potentials, based on the Bank's evaluation of industries/ sectors based on the prevailing economic scenario prospects, etc.

The operational processes and systems of the Bank relating to credit are framed on sound Credit Risk Management Principles and are subjected to periodical review.

The Bank has comprehensive credit risk identification processes as part of due diligence on credit proposals.

- **The structure and organization of the Credit Risk Management Function:** Credit Risk Management Structure in the Bank is as under-

i. Board of Directors
ii. Risk Management Committee of the Board (RMCB)
iii. Credit Risk Management Committee (CRMC)
iv. Model Review Technical Working Group (MRTWG)
v. General Manager-Risk Management Wing, H.O (Group Chief Risk Officer)
vi. Deputy General Manager (I&II), Risk Management Wing
vii. Credit Risk Management Department comprising of Credit Policy Section, Credit Analysis Cell and Credit Risk Management Section. The Credit Risk Management Section has three functional desks, the Credit Risk Management Desk, Credit Risk Rating Desk and Industry Research Desk.
viii. Model Development Team
ix. Model Validation Team (MVT)
x. Risk Management & Credit Review Section at Circle Offices.

- **The scope and nature of risk reporting and / or measurement systems**:

Bank has an appropriate credit risk measurement and monitoring processes. The measurement of risk is through a pre-sanction exercise of credit risk rating and scoring models put in place by the Bank. The Bank has a separate Risk Rating Policy for identifying the parameters under each of these risks as also assigning weighted scores thereto and rating them on a scale of I to VII. Grade VIII or High Risk Grade III is termed as default grade. The risk rating policy also entails the guidelines on usage/mapping of ratings assigned by the recognized ECAIs (External Credit Assessment Institutions) for assigning risk weights for the eligible credit exposures as per the guidelines of the RBI on standardized approach for capital computation and also for pricing purposes.

The Bank has adopted 'Standardized Approach' for entire credit portfolio for credit risk measurement. The bank is endeavouring to move towards IRB approaches and made all necessary efforts in this regard.

The Bank has embarked upon implementation of a software solution to get system support for establishing a robust credit data warehouse for all MIS requirements, computation of Risk Weighted Assets (RWA), generate various credit related reports for review of exposure and monitoring, and conducting analysis of credit portfolio from various angles.

- **Policies for hedging and / or mitigating risk and strategies and processes for monitoring the continuing effectiveness of hedges / mitigants**:

Bank primarily relies on the borrower's financial strength and debt servicing capacity while approving credits. Bank does not excessively rely on collaterals or guarantees as a source of repayment or as a substitute for evaluating borrower's creditworthiness. The Bank does not deny credit facilities to those assessed as credit worthy for mere want of adequate collaterals.

In order to manage the Bank's credit risk exposure, the Bank has adopted credit appraisal and approval policies and procedures that are reviewed and updated by the Risk Management Wing at Head office in consultation with other functional wings. The credit appraisal and approval process is broadly divided into credit origination, appraisal, assessment and approval, and dispensation.

Corporate finance and project finance loans are typically secured by a first lien on fixed assets, normally consisting of property, plant and equipment. The Bank also takes security of pledge of financial assets like marketable securities and obtains corporate guarantees and personal guarantees wherever appropriate. Working Capital loans are typically secured by a first lien on current assets, which normally consist of inventory and receivables.

Bank has laid down detailed guidelines on documentation to ensure legal certainty of Bank's charge on collaterals.

The Bank's policy is to ensure portfolio diversification and evaluate overall exposure in a particular industry / sector in the light of forecasts of growth and profitability for that industry, and the risk appetite of the Bank. The Bank monitors exposures to major sectors of the economy and specifically exposure to various industries and sensitive sectors. Exposure to industrial activities is subjected to the credit exposure ceilings fixed by the Bank based on the analysis on performance of the industry. The Bank's exposures to single and group borrowers as also substantial exposure is fixed as per the risk rating of the borrowers and monitored periodically in order to keep the exposure level within the prudential ceiling norms advised by Reserve Bank of India from time to time.

The credit origination is through the grass root level ably assisted by the branch net work and Circle Offices. The process of identification, application is carried out before commencing an in depth appraisal, due diligence and assessment.

The credit approval process is a critical factor and commences with the mandatory credit risk rating of the borrower as a pre sanction exercise. The measurement of Credit Risk associated with the borrower evaluates indicative factors like; borrowers' financial position, cash flows, activity, current market trends, past trends, management capabilities, experience with associated business entities, nature of facilities etc. The credit sanctioning powers delegated to the various authorities based on internal risk rating categories of the borrower already put in place. In terms of the Ministry of Finance notifications, Bank has set up Credit Approval Committees at HO, Circle and Regional Office levels. The credit sanctioning powers of all the sanctioning authorities at administrative units (i.e., besides branch powers) are withdrawn and the committee approach for credit approval has been put in place. The Bank has in place specialized branches viz. Centralized Processing Units (CPUs), Retail Asset Hubs (RAHs) and SME Sulabhs at select cities to ease credit dispensation turnaround time and ensure specialized attention.

To enhance the control measures, a separate Credit Administration and Monitoring Wing is in place to undertake exclusive loan review, monitoring problem accounts, credit audit, etc. This ensures greater thrust on post sanction monitoring of loans and strengthen administering the various tools available under the Banks' policies on loan review mechanism.

For effective loan review, the Bank has the following in place:

- Pre-release Audit System for compliance to sanction terms and conditions, obtention of stipulated collateral securities ensuring perfection of securities before disbursement etc.
- Credit Audit System to identify, analyze instances of non-compliance and rectification for all types of credit facilities sanctioned with credit limit of Rs. 5 crore.
- Review of loan sanctioned by each sanctioning authority by the next higher authority.
- Mid Term Review of borrowal accounts beyond a certain level of exposure.
- Monitoring of Special Mention Accounts (SMA) at various levels. formation of a Joint Lenders' Forum (JLF) and formulation of Corrective Action Plan (CAP) in the case of consortium/JLA accounts, for early rectification or restructuring
- Monitoring tools like Credit Monitoring Format (web-based), Quarterly Information Systems, Half Yearly Operation Systems, Stock Audits etc.
- Credit Monitoring Officers at branches in charge of monitoring functions.
- A framework has been developed outlining a corrective action plan that will incentivize early identification of problem account, timely restructuring of accounts which are considered to be viable and taking prompt steps by lenders for recovery or sale thereby revitalizing the distressed accounts in the Bank.
- Bank has also put in place the scheme for Strategic Debt Restructuring (SDR) and Scheme for Sustainable Structuring of Stressed Asset (S4A) facilitates the resolution of eligible accounts. The Framework for Strategic Debt Restructuring (SDR) has put in place to address the issue of higher stake

of promoters in reviving stressed accounts and enhance the bank's capabilities to initiate change of ownership, where necessary, in case agreed critical conditions and viability milestones are achieved by the promoter. The S4A envisages determination of the sustainable debt level for a stressed borrower, and bifurcation of the outstanding debt into sustainable debt and equity/quasi-equity instruments which are expected to provide upside to the bank when the borrower turns around. The scheme is implemented in transparent manner, as per the guidelines of the RBI & IBA.

Sl No	**Significant Geographical area**	**NPA**	**Specific & General Provisions***
1	Domestic	354,461.50	130,520.20
2	Overseas	24,260.50	3,458.10

*Outstanding provision for NPA as at 30.06.2017

- **Portion of General Provision that is not allocated to a geographical area - NA**

Table DF- 4: Credit Risk: Disclosures for portfolios subject to the Standardized Approach

(i) Qualitative disclosures

(a) FOR PORTFOLIOS UNDER THE STANDARDIZED APPROACH:

- The Bank has recognized following credit rating agencies for the purpose of rating of an exposure & assigning risk weights for computation of capital charge under standardized approach.

Domestic Credit Rating Agencies:

- Brickwork Ratings India Private Limited (Brickwork),
- Credit Analysis & Research Limited (CARE),
- CRISIL Limited,
- ICRA Limited,
- India Ratings and Research Private Limited (Formerly FITCH India)
- SMERA Ratings Limited
- INFOMERICS Valuation and Rating Pvt. Ltd. (INFOMERICS)

International Credit Rating Agencies:

- Standard & Poor,
- Moody's,
- FITCH

- **Types of exposure for which each agency is used:**

All the above agencies are recognized for rating all types of exposures.

A description of the process used to transfer public issue ratings onto comparable assets in the banking books:

- The Bank uses only publicly available solicited ratings that are valid and reviewed by the recognized External Credit Rating Agencies, referred as External Credit Assessment Institutions (ECAI).
- Bank uses Bank Loan Rating for risk weighting the borrower's exposures. Where Issuer Rating is available, the Bank uses such ratings unless the bank loan is specifically rated.

- The Bank does not simultaneously use the rating of one ECAI for one exposure and that of another ECAI for another exposure of the same borrower, unless the respective exposures are rated by only one of the chosen ECAIs. Further, the Bank does not use rating assigned to a particular entity within a corporate group to risk weight other entities within the same group.

- Running limits such as Cash Credit are treated as long term exposures and accordingly, long term ratings are used for assigning risk weights for such exposures.

- While mapping/applying the ratings assigned by the ECAIs, the Bank is guided by regulatory guidelines/Bank's Board approved Policy.

- Where exposures/ borrowers have multiple ratings from the chosen ECAIs, the Bank has adopted the following procedure for risk weight calculations:

  - If there are two ratings accorded by chosen ECAIs, which map into different risk weights, the higher risk weight is applied.

  - If there are three or more ratings accorded by the chosen ECAIs which map into different risk weights, the ratings corresponding to the lowest 2 ratings are referred to and higher of those two risk weights is applied.

(ii) Quantitative Disclosures

(b) Amount of the Bank's Exposures- Gross Advances (Rated & Unrated) in Major Risk Buckets - under Standardized Approach, after factoring Risk Mitigants (i.e. Collaterals):

Sl No	Particulars	Amount (₹ in millions)			
		FUND BASED		**NON-FUND BASED**	
		30.06.2017	**30.06.2016**	**30.06.2017**	**30.06.2016**
1	Below 100% Risk Weight	3,852,043.05	3,521,872.18	765644.43	745,925.99

Leverage Ratio

The Basel III leverage ratio is defined as the capital measure (Tier – 1 capital of the risk based capital framework) divided by the exposure measure, with this ratio expressed as a percentage. As per RBI guidelines, the Basel III leverage for the Bank at the consolidated level as at 31st December, 2016 is as follows:

Amount (₹ in millions)

Particulars	**30.06.2017**	**30.06.2016**
Tier 1 Capital (A)	335,758.20	298,130.59
Exposure Measure (B)	6,357,829.85	5,946,344.26
Leverage Ratio (A/B)	**5.28%**	**5.01%**
