PFRDA/2020/54/SUP-CRA/23

December 22, 2020

To,
All Stakeholders under NPS

Exit through Self - Authorization by E - NPS Subscribers

PFRDA vide its earlier Circular dated 4th September 2017 No.PFRDA/17/01/08/0001/2017-SUP-CRA had allowed exits from NPS based on 'Self Authorization' by the Subscribers themselves using Aadhaar if the corpus in their Account was up to Rupees Five lacs This mode was disabled post SC Judgement on Aadhaar e KYC. However post launch of Off line Aadhaar PFRDA has digitally enabled opening of NPS accounts by using Off line Aadhaar with the explicit consent of the prospective Subscribers which offers instant account opening experience to such Subscribers.

2. It has now been decided by PFRDA to make the exit process more agile and seamless by extending the off line Aadhaar for the purpose of self-authorizing the exit requests of e NPS Subscribers. Under the process, the eNPS Subscribers with a corpus up to Rs.10 lacs (Rupees Ten Lacs) in their NPS Accounts, can furnish their off line Aadhaar details for the purpose of exit, in compliance with PFRDA's exit regulations.

3. In addition, for eNPS Subscribers whose corpus is more than Rs.10 lacs (Rupees Ten Lacs) as well as for the subscribers who are associated to POPs (Points of Presence) . an online platform has recently been enabled In this process, the exit requests of All citizen / Corporate sector subscribers would be verified by POPs, while exits of eNPS subscribers (not associated to any POP) would be verified by their respective banks which are registered as POPs with PFRDA.

4. The process of Self Authorization using Off line Aadhaar is given at the Annexure. Central Record Keeping Agencies (CRAs) are advised to make available the feature at the earliest in the interest of Subscribers.

5. This circular is issued under Section 14 of PFRDA Act 2013 is available at www.pfrda.org.in and its contents overrides the provisions laid out on the subject by PFRDA vide its Circular no. PFRDA/17/01/08/0001/2017-SUP-CRA dated 4th Sep 2017.
